

COVER LETTER

To: Whom it may concern,
Tech Company
Australia,

AUGUST, 2023

**XAVIOUR
GREENHALGH**
SOFTWARE ENGINEER

Dear recruiter,

It's a pleasure to meet you, even indirectly like this. I'm Xaviour, a full stack software engineer with a wealth of experience in the start-up/greenfield space, and I'm certain I could be an asset to your venture.

My technical expertise across the full spectrum of end-to-end development combined with my background in running start-ups and public speaking, predisposes me to excel in both client facing and deeply technical roles.

I specialise in fast-paced high-pressure environments, and have commercial experience approaching dynamic projects from both the software engineer and leadership perspective. In the last eighteen months alone I've delivered four comprehensive web based greenfield projects.

The opportunity to work with an innovative team on cutting edge tech is why I'm in this industry. So if you're interested I'd love to continue the conversation and hear more about the role.

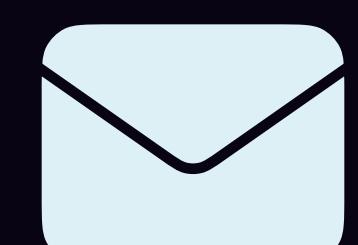

Sincerely,
Xaviour Greenhalgh,

PORTFOLIO
